Although Monday, annual town meeting
day and the day of all days of the
year as far as the general interest of the
local people of nearly all the Maine
towns is concerned, was stormy and a
decidedly disagreeable day for people
to get out, the people of Norway turned
out in the usual or perhaps more than
usual numbers. This was accounted
for by there being in the warrant
articles of more than ordinary interest
to all the citizens that had been worked
up to an interesting and enthusiastic
point. Without doubt the leading issue
was the road question which had been
worked up in various ways. There was
also a hearty contest on the choice
of selectmen, and a member of the
Superintending School Committee.

The ladies had been invited to attend.
In the forenoon only a few were present
but the afternoon brought a large num-
ber, some over 200 attending. School
children were present in large numbers,
watching the proceedings with marked
interest.

The moderator and clerk were quickly
and easily chosen, both being on the
two tickets. Mr. Kimball has served
Norway in the capacity of moderator at
the annual meeting for many years. In
this and other towns of Oxford county
he has done this for 30 years. His com-
pany as clerk for several years.

The largest total number of votes cast
was 602, showing that the attendance of
voters was considerable over 600.

Votes cast for the various officials were:

It was about 2:15 o'clock when the
votes for principal officers chosen under
Article 3 were in, counted and the result
announced. At this point a motion was
made to adjourn for one-half hour to
give those who had not already done so
to get dinner. This motion was changed
to 15 minutes, the moderator and clerk
being ready to proceed without a stop.

After the short recess bids were called
for the collecting of taxes. Two were
received, Simon Harriman and F. E.
DeCoster, each being willing to collect
for one and one-half per cent. A motion
was made and carried to dispense with
the check list. For collector 227 votes
were cast receiving 214 for election. F.
E. DeCoster received 285 and Simon
Harriman 142.

Under Article 4, "to see if the town
would elect a road commissioner or
commissioners for a period of three
years," F. W. Sanborn asked for 500
minutes of the town's time and stated
that everyone knew of the need of better
roads and that the question was whether
they would continue in the same way or
turn over a new leaf and see if something
could not be done to improve their con-
dition. It was a matter of electing three
men for one year or one man for three
years. He believed that they should turn
away from the old way and try a new
way that would perhaps lead to some-
thing better.

Joshua Yeaton stated that he believed
that one could not have good roads as
long as the old methods were employed
and that something different should be
done.

H. B. Foster told how the movement
had been started by the Board of Trade
and explained that it was for the whole
town.

VOLUME XXXIX

Court Opens Next Tuesday.

Next Tuesday is the opening day of
the regular March term of court for Ox-
ford county. There does not appear to
be an unusual amount of civil business.
Quite a good deal of criminal business
may be expected. There will be as
usual considerable in this line from Rum-
ford Falls. Judge William P. White-
house of Portland will preside.

The leading attraction this term as
well as last will be the trial of Wallace
G. Everett charged with the murder of
Edgar L. Radcliffe, June 16, 1907. This
case was tried at the October term, as
everybody knows, and the jury after be-
ing out 26 hours brought in a disagree-
ment and were discharged. It was
understood that they stood seven to five
for Charles C. Hout, John P. Spasey,
counsel for Everett, would not have the
case tried again in this county if he
could prevent it, but it is not known if
it is of the same mind and will make a
move for a change of venue at the open-
ing of the case or not.

Assistant Attorney General Warren C.
Philbrook of Waterville, who was here
at the October trial, will be here this
term and work with County Attorney
Charles P. Barnes on the case.

impaneled at the October term. They are

so far been returned to Clerk of Courts
Charles E. Whitman are

Edwin A. Stearns, Sumner.
Whitfield B. Stuart, Paris.
Randal L. Taylor, Mexico.

Sheriff Hiram R. Hubbard of Paris
Hill will be in attendance, also Jailor

Bartlett of East Stoneham, C. W. Shaw
of Buckfield, John F. Phillips of Frye-
burg and W. A. Bicknell of Norway.
W. A. Barrows of Paris will be the mes-
senger. Leona D. Stuart of South Paris
will be in charge of the telephone.

Deputy Sheriff W. A. Bicknell has
been appointed early to take the place
caused by the death of Henry E. Ham-
mond.

Attractions at Norway Opera House.

That the theatregoers of Norway have
a treat in store for them, goes without
saying, when the announcement is well-
known, that Manager Hathaway of the
Norway Opera House has booked the
famous Murray-Rostell Stock Company
for three nights commencing Monday
evening, March 9. This company is
identically the same, that last month
played to packed houses in Bangor, Port-
land, Lewiston, Augusta, Waterville,
Lawrence, Mass., and Concord, N. H.

W. W. Twombly and Albert Fogg at-
tended to the check room. The ladies
served spring water according to the
usual custom. There was also a large
attendance in the gallery, making this
occasion in every way a most successful
affair. The prospects are so good for
the little Pictorial girl who is at the
hospital, in her unfortunate sickness.

Don't fail to hear the Bowdoin Glee
Club boys to-night.

The Browning Reading club will meet
with Mrs. Charles F. Whitman, Monday
evening.

The Roundabout Whist club met with
Miss E. J. Smith, Thursday evening of
last week.

Victor Whitman and wife are here
from Massachusetts visiting their par-
ents.

Marion Crockett is at the C. M. G.
hospital in Lewiston for an operation for
appendicitis.

Albert Bennett is gaining slowly. He
rode out last week for the first time for
eight weeks.

Mrs. James Danforth entertained her
Sunday school class of boys at her home,
Wednesday evening of last week.

Mr. and Mrs. Owen Brooks attended
the wedding of the former's sister at her
home in Deering, Friday, Feb. 28.

Iza Pike, who is at the hospital at Lew-
iston for appendicitis, is getting along
nicely and will be at home the last of
next week.

The name of Mrs. Dora E. Tower was
accidentally omitted from the list of new
members of the C. M. G. hospital in
Deering last week.

Mr. and Mrs. Frank Cox and Mr. and
Mrs. Edw. E. Harris of Somerville, Mass.,
spent Wednesday with O. N. Cox and
wife at North Norway.

Mr. and Mrs. Andrew Hayes and Mrs.
Ernest Hall and daughter, Virginia, of
Augusta were the guests of Mr. and Mrs.
James Farrow the past week.

L. I. Gilbert has just purchased a
Hobart electric power office mill that
has an attachment for grinding sausage
meat, hamburger steak and the like.

David Owen, business manager of the
Murray-Rostell Company is in town mak-
ing the necessary arrangements for the
appearance of this popular organization.

The annual business meeting of the
ladies' circle of the Universalist church
will be held at the home of Mrs. James
Danforth, Tuesday evening, the 10th, at
7:30 o'clock.

Gertrude Gardner leaves, Saturday,
for Massachusetts, where she will visit
her mother. These promenade will be
held second and third Tuesdays during
March and April of each month. Music
by Mr. and Mrs. John Lamb of Oxford.

Mrs. Frank Kimball's mother, Mrs.
Mary Gary, who is 89 years old, fell Sat-
urday morning and broke her arm just below
the shoulder. She cannot tell how it hap-
pened. Mrs. Kimball heard her cry out
and found her in the hall. She is at-
tended by a trained nurse and is as com-
fortable as could be expected.

The children of grade nine have made
a book on the Polyphemus and sent it to
B. F. Allen of the well-known publishing
firm. Mr. Allen was here when they
were working on the books and request-
ed they send him one.

HAPPY WOMEN.

Wouldn't any woman be happy.
After years of backache suffering.
Days of misery, nights of unrest,
The distress of urinary troubles,
To find relief and cure?
No reason why any reader
Should suffer in the face of evidence
Like this:

Mrs. Almira A. Jackson, of East Front
St., Traverse City, Mich., says: "For
twenty years I
was doctoring
for kidney and
liver trouble,
but without ben-
efit. Just before
I began using
Doan's Kidney
Pills I was al-
most paral-
yzed. I could
hardly stand on
my feet be-
cause of the
numbness and

lack of circulation. Had a knife been
thrust into my kidneys the pain could
not have been more intense. My sleep
was disturbed by visions of distorted
figures. The kidney secretions were an-
noyingly irregular, and I was tortured
with thirst and always bloated. I used
seven boxes of Doan's Kidney Pills. The
bloating subsided until I weighed 100
pounds less, could sleep like a child and
was relieved of the pain and the irregu-
larity of the kidney action. My circula-
tion is good and I feel better in every
way."

A FREE TRIAL of this great kidney
medicine which cured Mrs. Jackson will
be mailed on application to any part of
the United States. Address Foster-Mil-
burn Co., Buffalo, N. Y. For sale by all
druggists; price, 50 cents per box.

Written for the Advertiser. Beautiful Waterford.

I would wander again in thy regions fair,
And take the first breath of the balmy air;
I would walk in those beautiful woods of thine
And list awhile to the whispering pine.
I would sit on that soft green mossy seat,
Where I love to muse by the running brook,
For it seems to say as it glides along
I will tell thee to rest with my quiet song.
I will tell thee the shadows are falling now,
But bright deities gleam grace the mountain's brow.
There golden and crimson and red are seen
Decking her robes of emerald green.
Behind the mountains the sun has gone down,
And the stars are appearing one by one;
It is twilight, we are all alone,
And the night and the cows are coming home.
Now stillness reigns and we thank in our pray-
ers
The Father of all for his loving care;
Sweetest words fall on the listening ear,
Have faith in thy God and be of good cheer.

MUSIC.

(Lines suggested by reading a Norway High
School girl's essay on "Music.")
"Music hath charms" the poet saith,
It quells our morbid fears.
Bringing laughter to our lips,
Or fills our eyes with tears.
Our souls with joyous rapture thrill,
Our hearts with Christian love.
It doth our higher passions stir;
It is a gift from God above.
From dawn to dusk it fills our ears
Unto the present day.
Music, in its varied forms,
Permeating and ennobling way.
David, when a shepherd lad
Upon the Judean hill,
With sacred tunes upon his harp
The weary hours did fill.
And these with Nature did combine
A noble life to lead.
The Psalms of David, Sacred Writ,
In all the ages have been told.
In the affairs of state and nation,
When danger threatened sore,
The power of song hath turned the tide,
And bridged the crisis o'er.
And from the humblest cottage
To the stately mansion grand,
The sing their cradle songs
Throughout our Nation's land.
The wedding march, the funeral dirge,
The battle's stirring song,
The Christian's hymn of trustful faith,
To every age belong.
And when our earthly lips are mute
And time with us is o'er,
The song of "Moses and The Lamb,"
We'll sing forever more.

There is more Catarrh in this section of the
country than all other diseases put together,
and until the last few years was supposed to be
incurable. For a great many years doctors
have tried to cure it with local remedies, and
by local treatment, pronounced it incurable.
Science has proven that to be a constitu-
tional disease and therefore requires constitu-
tional treatment. Hall's Catarrh Cure, manu-
factured by F. J. Cheney & Co., Toledo, Ohio,
is the only constitutional cure on the market. It
is taken internally in doses from 10 drops to a
teaspoonful. It acts directly on the mucous
surfaces of the system. They offer one
hundred dollars for any case it fails to cure.

SWEDEN.

A Practical Joke.
Chauncy Poor has just finished his
second "fiddle." It is larger than the
first one. It is heavy toned yet would be
called a very mellow toned one. Any
one who would like to hear him play on
his new viol just give him a call and he
will play a reel that will bring any one
on to the floor if they have any music in
them.

Mr. Poor, who is fond of playing jokes
and who is living with his sister, took a
twenty dollar bill and placed it under his
sister's plate, then took a cracker, broke
it up fine and strewn it about the table.
When his sister came into the room and
looked on the table she said: "Chauncy
I am surprised, just look at that table
and see what you have done after I had
cleaned it off so nicely. What would
people say if they came in. If you can-
not be more neat you will have to eat
with the pigs."

Mr. Poor, after listening to his sister's
lecture said, "Rachel you have called
me down in good shape. Now let me
have the floor just a minute. I was bur-
ry, took a cracker, ate it and thought
I had brushed all the crumbs under your
plate."

His sister soon cleaned the table and
went to clean the crumbs under her
plate. The first thing she saw when she
raised the plate was the twenty dollar
bill. We will leave it to the reader to
guess whether Mr. Poor was quickly for-
given or not by his sister.

church gave a supper and entertainment
at the Town hall, Wednesday evening.
Music was furnished by Young's orches-

evening of much interest to the women
were the silhouettes of towns people drawn by
Mrs. Smith, which caused much amuse-
ment.

New Cure For Stomach
Frank Kimball Gives Norway Advertiser
Reasons to Try It.
Since nobody knows when, people
have suffered from indigestion, sick
headaches, bloating, dizzy spells, dis-
tress after eating, sleeplessness and the
many other symptoms of stomach troubles
and have found the usual remedies
powerless.

Here is a chance for Norway AD-
VERTISER readers who may suffer with weak
stomach to test without risk of loss the
new prescription, called Mi-na, for in-
digestion that has met with great suc-
cess wherever it has been tried.
This treatment, which strengthens the
whole digestive system so that the
stomach does its work without any
distress is sold by Frank Kimball, prop-
rietor of the Norway drug store, under a guar-
antee to refund the money if the remedy
does not do all that is claimed for it.
Mi-na costs but 50c. a box, and one
box will do more real good than a dozen
boxes of ordinary digestive tablets. 10-11

DO YOU GET UP

WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the news-

papers is sure to know of the wonderful

cures made by Dr.

Kilmer's Swamp-

Root, the great kid-

ney, liver and blad-

der remedy.

It is the great med-

ical triumph of the

nineteenth century;

discovered after years

of scientific research

by Dr. Kilmer, the

eminent kidney and

bladder specialist, and is wonderfully

successful in promptly curing lame back,

uric acid, catarrh of the bladder and

Bright's Disease, which is the worst

form of kidney trouble.

Dr. Kilmer's Swamp-Root is not rec-

ommended for everything but if you have

kidney, liver or bladder trouble it will

be found just the remedy you need. It has

been tested in so many ways, in hospital

work and in private practice, and has

proved so successful in every case that a

special arrangement has been made by

which all readers of this paper, who have

not already tried it, may have a sample

bottle sent free by mail, also a book tell-

ing more about Swamp-Root, and how to

find out if you have kidney or bladder trou-

ble. When writing mention reading this

generous offer in this paper and send your

address to Dr. Kilmer

N. Y. The regular

price of one

fifty-cent

dollar size bottles are

sold by all good druggists. Don't make

any mistake, but remember the name,

and the address, Binghamton, N. Y., on

every bottle.

SUMNER.

Telephone Sales Building.

Shortly after 11 o'clock, Tuesday

night, Feb. 25, Roscoe G. Stephens and

family of South Sumner were awakened

by the crackling sound of fire and upon

investigation found that their house was

on fire. They had not been in bed long

when the alarm was given by the tele-

phone and eight men quickly arrived

and worked vigilantly for several hours

before the flames were extinguished.

The cause of the fire is a great mys-

tery as it caught under the bathroom

floor, several feet from the chimney or

any pipe, making it necessary to cut

through the ceiling and floor in several

places to reach the fire.

The damage to the house and furniture

is estimated at about \$250. Insured.

Mr. Stephens says it had not been in

telephone the buildings would certainly

have been burned.

EAST SWEDEN.

E. W. Stone has been hauling wood to

Waterford.

C. O. Kimball & Son are hauling the

yarded timber on the D. T. Adams farm

to Kezar river.

H. H. Bisbee has purchased a station-

Aunt Patty's Plain Talks.

In studying out in the "economy of

nature" this sentence, it is a notable fact

that married men live on an average fif-

teen to twenty years longer than bach-

elors. If this is an assertion, to me the

reason is very apparent.

Now why shouldn't a married man live

the longest? If anything goes wrong on

the farm, in the shop, the barn, the

woods, the office, the married man can

go home and growl at his wife while

poor old bach has to consume his own

grouches. If the neighbors and the hired

men are not treading just up to the

mark, wife has got to hear what the

husband doesn't dare say to them; now

the single man has to eat his own heart

out with all these troubles.

If the married man's children go

wrong, are unruly, contrary, are given to

do "just as they darn please" and beat

the old man at his own game, then don't

wife have to catch it. All of their short-

comings and evil doings are laid at her

door.

The bachelor has to bear all the conse-

quences of his own mistakes himself and

so it's no wonder that he gets disgusted

with life, and gives it up fifteen or twenty

years sooner than the man who has

some one to grumble at and find fault

with just as the humor takes him.

When the married man has indulged

himself in cigars, tobacco and something

for his "stomach's sake," not to mention

bird help, fireworks, fancy turn-

outs beyond his means and can't make

the figures come out right, he is sure

that it is his wife's wastefulness that

has brought him to ruin; but when these

things happen to the single man he

knows that it was his own lack of

"gunption" or forethought and when

you haven't any one but your self to

blame for the mishaps that occur in life's

journey, it is small wonder if you make

it brief as possible.

IT BRIGHTENS the home as nothing else will do, by renewing the finish of furniture and woodwork. It is highly beneficial to the finest finish, even that of a \$1,000 Piano, and its price is low enough to admit of its use on the cheapest, down to a 50c kitchen chair. It will improve the most beautiful furniture, including Mahogany, Rosewood, Golden Oak, White Enamel, Gilt, Silver. Equally well adapted to any color paint.

Liquid Veneer is not a varnish but a surface food and cleaner. It removes scratches, stains, dirt and dullness. Applied with cheese cloth. Leaves no coating or streaks and is not inflammable. It nourishes and builds up the finish instead of ultimately destroying it as do all preparations containing benzine or similar ingredients. Test Liquid Veneer for yourself; it will not ignite. It is wonderful for dusting. Try it and you will always buy it.

LOCKE'S MILLS.

Suffocated by Smoke. Fire was discovered in the summer home of Mr. and Mrs. E. L. Tebbitts, Saturday evening about 8:45 o'clock by Ed Goodwin; notifying C. B. Stowell, they at once gained entrance to the house, knowing that Lawrence Tebbitts was sleeping in the room where the fire was discovered. They made several attempts to enter the room but owing to the fierce fire and dense smoke they were unable to gain entrance. The fire alarm was then given. At once ample assistance was at hand; sufficient water to stay the fire was used; immediately M. A. Lapham entered the room from the window and Chris Bryant from the door. Although unable to see on account of smoke, Lawrence was soon found and carried from the room. As these two were nearly overcome by smoke, they were unable to carry him further, then others took him to the store of C. E. Stowell & Son.

It was learned that Dr. Tebbitts of Bethel was on the evening train, which was soon due; he was notified on arrival of the train and did all possible to restore life but it was too late. It seems quite likely that even as soon as the fire alarm was given, life was extinct. As soon as Lawrence was taken from the room, attention was given to the fire, which was soon extinguished. The fire was confined to the room in which it started but nearly every room was damaged either by water or smoke.

The cause of the fire was hard to determine but it is thought that by the striking of a match that part of it flew and burned slowly until after Lawrence was asleep. The continual breathing of the smoke must have soon brought unconsciousness. He had been drinking at his father's mill at North Rumford this winter and had come to spend Sunday here. Lawrence was the second son of Mr. and Mrs. E. L. Tebbitts of 17 Prospect street, Auburn Heights, was a graduate from the Webster Grammar school and entered Edward Little High school; later he went to Worcester, Mass., where he attended the Highland Military Academy. Although his home was in Auburn, he had spent a greater part of his life here, where he was well known and had many friends.

Ten of his friends from this place and North Rumford attended the funeral in a body, which was held in Auburn, Tuesday afternoon at 2 o'clock conducted by the Congregational pastor, Rev. H. P. Woodin. The Lotus quartet furnished music. It is seldom one sees so beautiful a display of floral tributes as was there seen.

HARRISON.
Old Fellows' Hall Dedicated. The fire last spring consumed the building formerly occupied by Harrison Lodge, No. 41, I. O. O. F., since which time meetings have been held in Grange hall. The old lot proving too small for the block which the enterprising members decided to erect, it was sold to W. Jackson, who has built a drug store. The site of the old Jordan block, together with a small strip of land on the eastern end, was purchased and a building erected fronting 120 feet on Main street. The lower floor is designed for 5 stores and the post office, occupied by the following: J. T. Keeland, grocer; W. A. Southworth, clothier and undertaker; J. F. Allen, shoe dealer; and the post office.

Old Fellows' hall is situated on the second floor, the entrance to which is midway in the front of the building. There are commodious ante-rooms, and rooms for the paraphernalia. The floors have inoleum and velvet tapestry carpets. The main lodge room, in entrance from the central ante-room, is 44-6x37-6. It has plastered walls and a steel ceiling, with heavy cornice overhead. The floor is covered with a carpet of the same design as in the ante-room. There are appropriate draperies. The furniture is solid and substantial and gives an attractive appearance to the room.

There is also a reception room fitted with mission furniture, upholstered in brown leather; and a smoking room. A conveniently furnished kitchen and banquet hall. The building committee was Wm. H. Briggs, Oliver N. Abbott and R. P. Bennett, in conjunction with Geo. E. Tarbox, N. H. Seavey and J. S. Felt, trustees. The block is said to have cost about \$13,000. The members of Woodlawn Lodge of Rebekahs have been of great assistance in the matter of furnishings.

The dedicatory exercises began at 2:30 Wednesday afternoon of last week, with many Odd Fellows and their guests present. The Grand Officers of the State or organization performed the formal dedication services of the order. These were followed by speeches from the visiting and local members, after which a banquet was served in the tastefully decorated hall. Alphonso Moulton presided as toast master. Robinson's orchestra furnished music during the afternoon.

In the evening there was a ball, held at Grange hall, about one hundred couples being in attendance, who danced to the music of Lamb's orchestra. The lodge netted about \$550, which is to be used in paying for the furniture. The building is an elegant one that every citizen of the town is proud of, and it is claimed by those who know that no better I. O. O. F. hall is to be found in the State.

PARISH HILL.

Frank Eastman of Harrison was the guest of his father, H. B. Eastman, on Wednesday. Mrs. Trewoy, who has supplied the Baptist pulpit for the last two Sundays, was much liked by the people of the parish. Bert Gibbs returned from Central Maine General hospital on Saturday, having made a very quick recovery from an operation of appendicitis. H. B. Eastman celebrated his eighty-second birthday on Wednesday, March 4th. During the day he received many of his friends who unite in wishing him many returns. His children were all present at dinner. Five of his grandchildren were at the house during the day.

Warren Severy, an aged and prominent citizen of East Dixfield, while in a fit of temporary derangement, left home a few nights since and

NORWAY AND VICINITY.

Hard Work Hath Its Rewards.
Tufts College, Mass., Feb. 24, 1938.
EDITOR OF THE NORWAY ADVERTISER:
Dear Sir:—It may be of interest to you and your subscribers to know of a new honor that has come to a Norway boy, Charles Haskell Danforth.
Mr. Danforth, son of James Danforth, has accomplished the very commendable, and not at all easy, feat of completing his studies at Tufts college, leading to the degree of A. B., in three and one-half years, besides acting as assistant instructor in botany for two half-years while pursuing his under-graduate studies.

In recognition of Mr. Danforth's promise as a student in Biological science as typified in his recently published monograph entitled "A New Plesiopter from New England", published under the proceedings of the learned Boston Society of Natural History, and by his success as an instructor in Botany, the trustees of the college, with the recommendation of the President and Professor John Helwig Kingsley, have granted to him the Olmstead Fellowship in Natural History. This gives him the privilege of pursuing graduate research work in Biology leading to the degree of A. M. It may be stated that this Fellowship was never before awarded in the middle of the year, and therefore more to the credit of Mr. Danforth's ability in this case.

Mr. Danforth, in addition to his study of the mollusk, has in manuscript a study of the common field daisy in the determination of the number of its ray flowers.
Although a major student in Biology Mr. Danforth has also another honor. He has been assistant editor of "The Tuftonian", the literary organ of the college, for three years and in such capacity has contributed some studies of value, almost "Thoreauque" in their literary flavor. At the present moment Mr. Danforth is president of the Biology club, an active member of the Eranos society, the college literary circle, and the Delta Upsilon Fraternity.
The future progress of Mr. Danforth is great, and his progress on the road to fame will be watched with great interest not only by his numerous circle of college friends but by his old neighbors and acquaintances in Norway.

The N. C. M. met with Mrs. Chas. Hathaway, Friday night.
The W. C. T. U. will meet with Mrs. E. N. Barker Tuesday, Mar. 10, at 2:30 p.m. A cordial welcome will be extended to all and it is hoped there will be a full attendance of members.

Emery T. Record died Thursday morning, Feb. 20, at his home a little distance north of the village on the Elm Hill road. Kewley, the pastor of the church. Mr. Record became a member of this church about eleven years ago and has since been one of the most active and earnest members. A widow and one son, Elliott E. Record, survive him.

G. H. Porter has hurt his thumb badly. He was loading a refrigerator car with apples, and the car door worked badly. Two men were pushing on it to shut it, and Mr. Porter, who had been working to clear away some ice at the bottom of the door, stood with his left hand up against the car in such a position that when the door came together it caught the tip of his thumb. The flesh was badly laid open, and it is by no means certain that the tip of the thumb may not have to come off, but it has been sewed on and it is hoped that it can be healed into a whole thumb.

After suffering for seven years, this woman was restored to health by Lydia E. Pinkham's Vegetable Compound. Read her letter.

Mrs. Sallie French, of Pownal, Ind. Ter., writes to Mrs. Pinkham: "I had female troubles for seven years—was all run-down and so nervous I could not do anything. The doctors treated me for different troubles but did me no good. While in this condition I wrote to Mrs. Pinkham for advice and took Lydia E. Pinkham's Vegetable Compound, and I am now strong and well."

FACTS FOR SICK WOMEN.

Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, nervous prostration. Wadsworth of Hiram demanded admission to the house of Mrs. Josephine Wilson of Portland, to search for Owen H. Goodwin of Hiram. They were denied and forcing the door they entered and assaulted by Mrs. Wilson and her daughters, with fists, feet, various kitchen utensils and the dog, also with threats to kill. Goodwin escaped to the street but was captured by the police. One of whom was struck with a horse whip. On the list the offenders were tried at Kears Falls before Justice Llewellyn A. Wadsworth another hearing being held Monday morning. The two youngest were fined \$20 each, and costs, amounting in all to \$80, which they paid. The mother and oldest daughter were remanded to the Supreme Judicial Court to be held in March, and failing to procure the required bonds of \$200 each were committed to Paris jail by officer Weeks.

Gems of Thought, Selected.
Excellence is never granted to man, except as the reward of labor.

If you have great talents, industry will employ them; if you have but moderate abilities, industry will supply their deficiency. Nothing is denied to well directed labor; nothing is obtained without it.

The best thing to give your enemy is forgiveness; to an opponent tolerance; to a friend your heart; to a child a good example; to a father deference; to your mother conduct that will make her proud of you; to yourself respect; to all men charity.

Some one over to the east from me wanted me to come down some evening on this moon. He looked earthward when I told him that the moon didn't go that way.

Some of the patent medicine vendors have such powerful doses that all you need to do is to get one of their almanacs.

The recent cold snap was quite a surprise but according to all accounts we are going to have a pleasant spring.

Do you keep the roads in good shape for the mail carrier? If not, don't complain if he don't come.

That was a terrible scorching that Portland took. How fortunate that the State House wasn't there amongst it. Perhaps they will try to get it now to help fill up the "gap."

We would like to have it here at South Paris. They would probably like to have it up in Yaggar but their chances are almost as poor as ours. What a grand scheme it would be to have it put on wheels or runners and moved about over the State.

Each one of these aspiring communities might have it for a term of years and all be accommodated. Perhaps that is what the State roads are being built for. The road makers do good work just the same.

"Current Events."

A well attended and interesting meeting of the Stirling Literary club was held on Tuesday, Feb. 18th, at the home of Mrs. Edith H. Harty.

"Current Events" topics engaged the attention of the members during the afternoon session and but a short intermission intervened before the arrival of the guests of the evening, the club husbands and a few specially invited friends.

In all about twenty-five guests partook of the excellent oyster supper for which the sharp zero weather furnished a keen appetite almost superfluous when, as in this case, the cooking was perfection.

Mr. and Mrs. Harty as hosts were alert and painstaking for the comfort and enjoyment of each guest, and were assisted in serving by a few of the ladies of the club.

After the feast, tables were cleared and for an hour or two of music by Mrs. H. D. E. Hutchins, Miss Ballard and George Coleman, who sang most acceptably some of the new and popular ballads of the time, in which they were accompanied by Mrs. Walker at the piano.

A brief season of social converse and a seasonable departure ended the exercises of the evening, which were altogether pleasant.

An afternoon meeting of the club was with Mrs. Olive Hutchins, March 3.

Retires With Honors.

The many acquaintances in this vicinity of Mr. and Mrs. James E. Webster of Lowell, Mass., will read with interest a clipping from the Lowell Evening Courier Citizen.

Both Mr. Webster and his wife were born and reared in this vicinity, the former here in West Fryeburg and the latter (born Admira Wentworth) in the adjoining hamlet of East Conway, N. H.

After more than 41 years of honest, faithful and continuous duty as an officer, James E. Webster rounded out his last day of active service as a member of the local police department, the last day of January, he having been placed on the pension roll by unanimous vote of the police board at its last regular meeting.

On Lieut. Webster's last evening when "his boys" returned from the day's labor to "roll call", the superior officers of the department lined into the guard-room and with a neat address reviewed with him the retiring officer, in pleasant words expressing to him the deep appreciation and high regard in which every member of the department held him, on behalf of the members, a most solid gold watch chain and charm.

Hon. B. Walker McKee has been away from home for a few weeks, lecturing tour in western New England.

Mr. McKee is reported recently to have been called upon unexpectedly by the failure of a scheduled speaker to arrive to make some remarks and the address which he made in response has been highly praised by those assembled at a gathering in East Conway, N. H.

A Larkin club reports a good time with Mr. and Mrs. H. D. E. Hutchins hosts on Saturday evening, Feb. 15th.

Besides the usual feast of good things to eat supplied by the hosts there was an evening of song and merriment. The charming and spacious reception room cleared of everything that might impede free movement soon resounded with the strains of Strauss and Sousa as rendered by the Larkin club.

Under the veil of a heavy snowstorm, the newly married couple happily escaped without notice.

Saved a \$170.00 Mare When a Veterinary Failed to Cure Her.

"While serving as an officer on the steamship Montezuma, which carried horses and mules to South Africa," writes Mr. G. H. H. Rowe, of Sparta, Ill., "I saw Sloan's Sure Colic Cure used on the horses and never saw a case of colic prove too much for it.

"We had 1,250 horses on board for over a month, so that we had a good opportunity to test the remedy thoroughly.

"The veterinary used Sloan's Liniment, also, for sore shoulders and sprains, and the horses were landed in a particularly fine condition.

"I know of another case here in Sparta, Ill., where Sloan's Sure Colic Cure saved a \$170 mare after the veterinary had failed to cure her."

WEALTHY PHILANTHROPIST HEALS CHICAGO'S POOR

City Is Excited Over the Remarkable Cures of a Mysterious Man Whose Eccentricities Are Startling.

Strange Stories Are Told of Quiet Stranger Who Distributes Great Quantities of Food and Clothing and Cures Disease Without Pay.

Chicago, March 4, Special.—The people of this city are greatly excited over a number of remarkable cures which have been effected by a wealthy philanthropist by the name of Cooper.

His headquarters at The Public Drug Store is besieged with crowds of men and women eager to be cured of their ills.

Cooper is a quiet, gentlemanly person, with the appearance of a student rather than a business man. He is apparently about thirty-one or two years of age. He first came into public notice by his philanthropic work among the poor.

His first fortune he possesses has made it possible for him to distribute many wagon loads of food and clothing among those in indigent circumstances since his arrival in Chicago.

The first that was known of Cooper's power over disease was when John Stauder of 1807 Broadway, Cincinnati, Ohio, who was in this city on business, declared that Cooper, the philanthropist, was the same person who saved his life last March, after he had been given up to die by his physicians.

Mr. Stauder stated that last March the doctors told him he would not live until May, as he was in a terrible condition; every one said he had consumption; he had a nasty cough, with frequent hemorrhages, dizzy spells, and was so weak that the least exertion or excitement would completely prostrate him; there were severe pains in the stomach and back, and his kidneys were in bad condition.

"After my physicians gave me up," said Mr. Stauder, "I purchased a treatment of my case and called to see me. He left a peculiar medicine which I began taking and I immediately began to improve. My cough stopped, my stomach no longer distressed me, and my kidneys were in perfect condition. I gained seventeen pounds in seven weeks, and today I am as well as I ever was in my life."

A few days after this, Mr. R. L. Sidwell, a justice of the peace living at 3322 Dearborn street, reported that Cooper had cured him of a severe case of stomach trouble with a few doses of his peculiar medicine.

His trouble had been of long standing, and he had tried many different doctors and medicines without relief. From the first dose of Cooper's medicine he began to improve, and is today in apparently perfect health.

This was followed by the still more remarkable cure of Mr. Thomas Webster, employed at the Omaha Packing Company, and living at 3210 South Morgan street. Mr. Webster had suffered for years with pain in his stomach, dizziness, palpitation of heart, backache and all other troubles. He came to Cooper's headquarters, and displayed an enormous list of his ailments, which he had passed from his system after he had taken a few doses of the Cooper medicine. Mr. Cooper said all his suffering had left him as if by magic, and he felt like a new being.

The report of these remarkable cures drew like wildfire and the Public Drug Store, where Cooper is making his headquarters, is besieged by people suffering from all manner of ailments.

The physicians of this city are amazed at the work he is doing, and have tried to shake the wonderful influence he has over the people, even going so far to threaten prosecution, but as he does not accept any money for his services and does not give any medicine himself, they have been powerless to interfere.

Cooper created considerable amusement at the expense of the doctors by asking them why they did not write their prescriptions in English so their patients would know what they were taking.

Since the interest has become so widespread that Cooper cannot meet the people personally, he is receiving an enormous mail, and keeps a large force of stenographers employed in answering it. In the meantime stories of marvelous cures continue to pour in.

Mr. Vincent Trocilo, living at 4724 Armour avenue, had suffered agony for months from rheumatism. In telling of his case he said:

"Two years ago, while in the best of health, I was stricken down with rheumatism, which affected my arms so that I could not raise them above my head. For this reason I had to give up my profession and had to live in a state of complete helplessness; I could not play it at all. Gradually the rheumatism spread to my limbs, and it was with great difficulty that I could walk; my appetite became very poor and I began to get discouraged.

"One day I read of Cooper's preparations in the newspapers and what they were doing for Chicago people, and I decided to try them as a last resort, as I had tried every known remedy but without any result. I purchased a treatment and soon after commencing same, I noticed an improvement in my appetite, which became normal again; also the pains in my arms and limbs decreased, and I was soon able to raise my arms high above my head and could walk without any difficulty. I am feeling fine and expect to go back to my profession again; it will seem good to be able to play on my harp once more, but I should never have been able to do so if I had not used Cooper's preparations. They saved me where all others failed.

"I want to praise these remedies all I can, for they are certainly wonderful."

Cooper claims to have received the formulas of the medicines he is using from an aged priest in a steepy Spanish town in old Old Mexico. The Mexicans believed that holy water or some supernatural element entered into their composition.

Cooper receives an enormous daily mail. Letters are coming from every part of the state, asking for advice.

The philanthropist reads every letter carefully, and replies to each one, advising the remedy which is applicable to each individual case.

While his remarkable cures are the chief topic of conversation, many stories are heard on the streets and in the business places of his goodness to the poor. His gifts of food, money and clothing have relieved a great amount of distress, and have greatly endeared him to the people.

He is beginning to show the great strain he has been under the past two weeks, and it is understood that he will remain here only one more week.

Norway Annual Town Meeting.

Continued from page 1.

town and not as some had said a matter for the benefit of the village. F. W. Sanborn and himself had been appointed by the board of trade to work the matter up and present it at this meeting.

After careful consideration and the use of the check list they had selected a man for commissioner whom they believed could carry out the work. It was not an easy matter to get him to undertake the matter, but after a while he was prevailed on to accept the nomination. This man was H. W. Oxnard. He had made a report to the committee which was read at a meeting of board of trade which Mr. Foster read here for the benefit of those who had not heard it. The report was published in the ADVERTISER of last week.

Carl Shank was not in favor of electing a man for three years, but expressed some excellent ideas on the matter and realized fully the need of better roads. Mr. Shank's pointed illustrations brought down the house.

George R. Howe stated that the rock in this vicinity was not suited to crushed stone road construction.

Virgil Dunn said that the roads in town had been growing worse for the past six years and was heartily in favor of something being done to improve them.

An objection that Mr. Shank had to a man being elected for three years was that he might not prove a good man and we should want to get another. To this F. W. Sanborn replied that if he didn't prove satisfactory the people could make it so warm for him that he would be glad to resign.

A motion was made to pass over the article but was doubted and when put to a vote showed clearly that the people did not wish to pass it over.

Mr. Sanborn's motion to elect one man for three years was then put and a good show of hands was seen in favor of it. When the contrary minded was called for but two hands were seen.

The ballots were called and the result was:

Votes cast 250.

H. W. Oxnard.....247

F. P. Towne.....11

Alvin Brown.....8

Article 5 was to establish the price the road commissioner should receive for his services. On a motion of Mr. Sanborn, who stated that the price that had been talked was \$500, the article was passed over until the matter of raising money for town officers' salaries should come up. This was later voted to be \$500 per year.

The town voted "yes" to Article 14—To see if the town will vote "yes" or "no" upon the adoption of the provisions of Chapter 112 of the Public Laws of Maine, for the year 1907 relating to the appropriation of money necessary to entitle the town to state aid for highways for the year 1908. And also voted to set aside the sum of \$164 for the permanent improvement of the main highways as contemplated and directed by Section 5, Chapter 112, of the public laws.

On the matter to see if the town would vote to erect a building to accommodate the overflow from the schools, also rooms for an armory, assessors' office, public library, hall, etc. Capt. J. W. Nash explained the matter in detail, giving the figures as published in this paper last week, explaining how aid would be received from the State, and as more money must be provided for the military company thought this a most feasible plan. As he believed, however, that some did not fully understand the proposition he would not ask for final action at this time but would ask that a committee be appointed to look into the matter and present it at an adjourned or special meeting.

It was decided to leave the matter with a committee of five to be appointed by the chair who should report at a special meeting to be held at two o'clock the first Saturday of May next. Committee, Darius S. Sanborn, Capt. John W. Nash, Wm. E. Jones, Jas. L. Parttridge and Harry M. Jackson.

It was voted to maintain a school in the Crockett Ridge, Chapel and Millettville neighborhoods.

The appropriation of \$550 for the public library is \$100 more than for last year. The increase is necessary on account of the trustees being unable to secure a librarian at \$3 per week as formerly. They now have to pay \$5 a week. The extra \$100 will allow them to buy about the usual number of books.

The town voted to allow the heirs of the late Samuel P. Frost such taxes as may be assessed upon the property of his estate, if they will keep the road leading from the house of the said heirs by the house of Masson F. Frost in a suitable condition of repair for the ensuing year.

It was voted that all taxes shall be due and payable Nov. 15, 1908. Interest at 6 per cent. will be charged on all taxes after Jan. 1, 1909.

After considerable talk and some doubting the vote was carried 35 to 17 by Commercial bonds for the town treasurer and tax collector.

It was voted to accept road near town farm as laid out by selectmen. They are to pay F. P. Towne \$100 land damage.

Article 37. To see if the town will vote to have the school moved from the road from F. P. Morrill's line to the gateway near the barn of D. E. Mills; was passed over.

It was voted that all poll taxes become due and payable July 1, 1908.

The article to see if the town would vote to empower the authorities to sell the school buildings in the Sodom district was passed over. Also the article to see if the town would vote to buy a steam roller.

The sum of \$5 was voted to pay the moderator for his services.

EAST OTISFIELD.

An Energetic Woman.

Our elders often tell us the women of today do very little work compared with what they used to do, but women are not all alike. There are exceptions in all cases. Otisfield can claim some hard working women to-day; some who can manage a farm, care for the stock, make butter, spin and knit, break her own roads, harvest her ice, raise the best veal calves of any one in town, beside caring for an invalid husband.

Since D. L. Holden has the past year made \$185 pounds of butter from three cows, and raised three calves, which they sold for about \$18 apiece. She raised a large flock of chickens which brought her an extra sum.

Since 1908 came in she has got 88 doz. of eggs, has made 133 pounds of butter from two cows, spun 55 skeins of yarn, knit 14 pairs of men's stockings and 15 pairs of mittens. With her span of sleek spirited horses she hauled 12000 casks of ice from Saturday pond in one day, beside taking care of her stock and doing her housework. This is no fish story but facts of every day life.

Mrs. Anna Perley is visiting at Bolster's Mill.

Dr. Oakes of Auburn was called in consultation with Dr. Holden last week on L. L. Holden's case. Mr. Holden is still confined to the house very little changed in health.

Dr. H. R. Farris of Oxford with a friend came over to Saturday pond fishing one day last week. Dr. Farris being a busy man in his profession seldom indulges in such rare sport and was anxious to be successful, so thought it advisable to procure the help of one familiar with the best places to set the lines. He thought William Smith lived so near the pond, and being chairman of the board of selectmen of his town had much leisure, he would procure his services as guide. He surely guided to the perfect satisfaction of all. The most excellent luck was theirs. They returned early, heavily laden with fish. Mr. Smith deigns to tell his friends that he caught more fish on one trip than ever before since he caught them from a wash tub with a pin. He is seriously thinking of fishing for a livelihood.

Mr. and Mrs. Levi Dingley of Casco spent Sunday at E. R. Stone's.

Mr. and Mrs. C. W. Sanborn of Welchville were at George Edwards', Sunday.

OXFORD.

Local Basket Ball Team Loses Game.

Friday evening the Bridgton Academy basket ball team came to town and trimmed the locals to the tune of 38 to 12. The first part of the game was interesting but in the second half the Academy boys showed such a tenacious grip and aggressiveness that they fairly played the all star aggregation off their feet, and when at close of time the referee's whistle blew each member of the local team wore a look as much as to say "I'm glad it's no worse." Now boys let me give you a pointer. In basket ball, foot ball, base ball or in fact in any game, simple brute strength will not win games against head and team work. Goal after goal was made by the Academy boys, that a little head work could easily have prevented. Get some of the principles and ideas of basket ball hammered into you.

Learn to follow the ball, judge the plays and act quickly. Do not move as though you had a ten pound weight hanging to each foot. And for heaven's sake have some knowledge of what to do with the ball when you get it. Don't think you must throw it at some old lady or a side seat simply because you see the glass in her spectacles shine. Boys do not get provoked at my criticisms. It will do you good. If you intend to play more, get together and practice. You are capable of doing better work. Do not each one think you are the whole team and depend on each other, to pass the ball accurately, to keep possession of ball and strive always to work ball towards opponents goal.

After the game dancing was in order. Music was furnished by Frank Knapp, cornet, Charles Weston, violin, Lulu Stone, pianist. Several gallons of "Jones best" ice cream was dispensed during the evening. The boys made enough to pay expenses and had a jolly good time.
